

## About H.P. University Regional Centre, Dharamshala (HPURC)

Since its establishment in 1992, H.P. University Regional Centre, Dharamshala has been a leader in providing education, research, consultancy, seminars, conferences, workshops, and publications across various educational programs. The Centre is committed to preserving and sharing knowledge, enhancing its capacity to address evolving challenges, and positioning itself as a distinguished institution and hub of excellence in research by advancing its current initiatives, adapting them, and responding to new challenges. Originally set up within the premises of Government Degree College, Dharamshala in 1992, the Centre relocated to its own campus at Mohli Khaniara in November 2013, located approximately 10 km from the main city.

### About the Conference

In an era marked by climate uncertainty and ecological imbalance, the need for a robust legal and institutional framework for disaster management has never been more pressing. Recognizing the unique vulnerability of mountainous regions to natural calamities such as earthquakes, landslides, flash floods, and forest fires, this conference is an earnest initiative to deliberate upon disaster risk reduction, preparedness, response, and recovery mechanisms through the lens of law, science, technology, and governance.

This conference seeks to bring together academicians, researchers, policy makers, legal professionals, environmentalists, administrators, and students to engage in meaningful discussions on contemporary global and local issues related to disaster management. It aims to foster interdisciplinary collaboration by integrating legal, social, technological, and environmental perspectives to develop sustainable and community-centric approaches that can strengthen disaster preparedness, mitigation, and recovery.

This conference will serve as a confluence of ideas and innovations, encouraging participants to share research findings, success stories, policy experiences, and future strategies. Ultimately, it envisions strengthening global cooperation and collective action toward the goal of **“Building Resilient Communities and a Safer Future.”**

## Objectives of the Conference
